# WHO JOINS? SEX CLUBS ?

Oral-genital intercourse involving three or more individuals allows for more variety of position and activity than is possible when only two individuals are involved.

When three people engage in sexual activity, it is termed troilism. This is one of the most common sexual groupings.

All members taking part in a troilistic or other group sexual experience are encouraged to participate, whether they choose to express themselves actively or passively.

**In sexual encounters involving more than one member of the same sex, it is very common to find the participants engaging in homosexual as well as heterosexual activities.**

Prostitution is a common theme in movies. However, films such as *La Viaccia* (with Jean Paul Belmondo and Claudia Cardinale) tend to make the subject more appealing than it really is.

Artist George Grosz depicted the joyless, dissipated aura surrounding prostitution.

Bordellos of the last century were often very lavish, ornate establishments. Business was conducted in a genteel manner.

The dramatic elements in the life of a prostitute have appealed to the artist through the years.

Life in a bordello is generally dreary and monotonous. In earlier times, the women were virtually prisoners.

The life style of the prostitute in different cultures has often been erotically depicted in all of the art forms.

This erotic drawing by an unknown nineteenth century artist graphically details a French prostitute earning her keep.

The modern woman is able to engage in sex for its own sake, and not

consider it as simply a necessary act for propagating the species.

Cunnilingus is the term applied to the practice of stimulating the woman's labia and clitoris with the mouth. The teeth as well as the tongue and the lips may effectively be used to arouse the female in this most sensitive area of her body.

# Glossary

## RESPONSE COMES TO TERMS

**ABORTION:** The termination of pregnancy, either through natural or unnatural causes. A natural, spontaneous abortion is often termed a miscarriage. An unnatural, or induced, abortion may be performed legally, or in violation of existing laws.

**AC - DC:** A vernacular term denoting bisexual behavior in either the male or female; sexually oriented towards both sexes.

**ADULTERY:** Voluntary sexual intercourse between a married man and someone other than his wife or between a married woman and someone other than her husband.

**CHATTEL:** Slave, item of property.

**CLITORIS:** The female organ of sexual arousal, seated forward in the vulva between the inner labia. It becomes erect under conditions of sexual arousal.

**COITAL:** Relating to coitus; sexual intercourse.

**CONTRACEPTIVE:** Voluntary measures taken to prevent conception or impregnancy.

**CUNNILINGUS:** Oral stimulation of the female's vulva or clitoris.

**DIAPHRAGM:** A contraceptive device inserted into the woman's vagina.

**DYSFUNCTION:** Impaired or abnormal functioning.

**EJACULATION:** The sudden discharge of seminal fluid during coitus.

**EROTIC:** Devoted to, or tending to arouse sexual love or desire.

**EXTRAMARITAL:** Adulterous.

**FELLATIO:** Oral stimulation of the penis.

**HYPERTROPHY:** Excessive development of an organ.

**INSIPIENT:** Lacking intelligence; stupid.

**INTROMISSION:** The act of inserting the penis into the vagina.

**ONUS:** Disagreeable necessity; blame; burden; stigma.

**ORGASM:** The climax of sexual excitement, typically during the end of coitus.

**SADOMASOCHISM:** The derivation of pleasure from the infliction of physical or mental pain either on others or on oneself.

**SATIATION:** The state of being full; overindulgence; gluttony.

**SELF-GRATIFICATION:** Masturbation; autoeroticism.

**SPURIOUS:** False; counterfeit.

**TROILISM:** Sexual intercourse involving three people; a three-way orgy.

**VAGINA:** The genital canal of the female, extending from the uterus to the vulva.

**SEX WITHOUT LOVE**

The penis usually responds quickly to oral stimulation.

Anal and vaginal coitus may be performed in many ways.

The walls of the vagina are elastic, and readily adjust to the penis.

Working both on their own and within the Women's Lib Movement, many lesbians are fighting for full, legal recognition.

The position shown above allows for deeper penetration

Post-orgasmic fondling is very pleasurable to most women.

The woman superior position allows the woman to move freely, and also enables the man to fondle all parts of her body.

A couple may engage in mutual oral-genital intercourse for its own sake, or as a preliminary to penile-vaginal coitus.

**When masturbating herself, a woman must resort to a substitute phallus. One of the fingers is often used for this purpose.**

A clean finger is probably the safest and most sensitive device a woman can use when she engages in self-stimulation.

Women have widely varying preferences as to the phallic substitutes they prefer to use for masturbatory purposes. Bottles, candles and bananas are just a few of the penis-shaped objects that are often employed for self-stimulation.

Masturbation technique is the same, whether a woman stimulates herself manually or resorts to some sort of penile-substitute. Careful intromission and sensitive stimulation of the labia and clitoris will produce the desired pleasure.

When foreign objects are inserted into the vagina, care must be used to prevent injury.

Intromission, from any position, is easier and smoother when a couple understand the physical need for adequate arousal.

Proper sex education includes attitudes which will allow a person to enjoy coitus whenever and wherever he chooses.

A troilistic group may consist of two men and one woman, two women and one man, or three people of the same sex.

Regardless of the makeup of a sex trio, a myriad of activities may be performed by all partners. Oral-genital contacts by both male and female, as well as penile-vaginal coitus, are frequently indulged in, often at the same time.

# The Sexual Woman... Psychologically Speaking

by Cuy A. Hayman, Ph.D.

Modern woman has freed  
herself from the shackles  
of her sexual biology.  
A psychologist takes  
an in-depth look at  
her new freedom.

Soixante-neuf—mutual stimulation of one another's vaginal area with the tongue—is a basic part of lesbian technique.

Anilingus is very often practiced in a lesbian relationship.

**Kissing and fondling are important aspects of lesbian sex.**

There are many positions for mutual vaginal stimulation.

Digital stimulation alone may bring the woman to orgasm.

French artist Viset was able to leaven the raw, carnal nature of prostitution with a touch of warmth and humor.

All types of prostitutes, from streetwalkers to famous courtesans, have been artistically captured for posterity.

Perhaps the best-known artist ever to deal with the subject of prostitution was Toulouse-Lautrec. His famous posters and canvases over-flowed with the lusty, garish, bigger-than-life world of the "fallen women" he knew and loved.

An electric massaging device is probably one of the safest and most satisfying tools a woman can use for masturbation purposes. The kind pictured above has several attachments for stimulating the outer labial area as well as the clitoris.

**Regardless of the object a woman chooses to use for self-stimulation, it should be clean and free from sharp corners, to prevent injury and infection.**

**After trying different phallic objects, many women find they can gain more pleasure with less effort by stimulating themselves with their own fingers.**

# THE SEXUAL LIBERATION OF THE AMERICAN WOMAN

ARTICLE BY STANLEY M. CLARK

SHE HAS JUMPED OFF THE "DOUBLE STANDARD" AND INTO THE FULL, SENSUAL WORLD OF SEX FOR ITS OWN SAKE. SHE REFUSES TO BE BOUND BY PURITANICAL RULES AND MORES. SHE IS ALIVE AND PROUD OF HER BODY. SHE EXULTS IN SHARING HER SEXUALITY WITH WHOM SHE WANTS, WHEN SHE WANTS, WHERE AND HOW SHE WANTS. SHE'S THE TOTALLY LIBERATED WOMAN OF TODAY.

The modern woman is free from the taboos and sexual repressions of the past. She engages in fellatio and cunnilingus as well as coitus, when she desires.

She now demands full equality with the partner of her choice, and sexually expresses herself orally as well as through vaginal-penile intercourse.

Women no longer accept the man superior position as the only method for making love. They insist on more variety.
